700 MILES OF THE UNION PACIFIC RAILROAD

Are now finished and in operation. 1460 miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before. More than twenty thousand men are employed, and it is not impossible that the centre track, from Omaha to Sacramento will be finished by 1869 instead of 1870. The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK

at the earliest possible day, will be done.

The UNION PACIFIC RAILROAD COMPANY receive

I.—A GOVERNMENT GRANT of the right of way, and all necessary timber and other materials found along the line of its operations.

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road. This is an absolute donation, and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile, according to the difficulties to be surmounted on the various sections to be built. The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails, &c. The interest is now much more than paid in this way, besides securing a great saving in time and money to the Government.

IV.—A GOVERNMENT GRANT of the right to issue its own FIRST MORTGAGE BONDS, to aid in building the road to the same amount as the United States Bonds issued for the same purpose, and no more. THE GOVERNMENT PERMITS the Trustees of the First Mortgage Bondholders to deliver the Bonds to the Company only as the road is Completed, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class Railroad, laid with a heavy Trail, and completely supplied with depots, stations, turnouts, car-shops, locomotives, cars, &c.

V.—A CAPITAL STOCK SUBSCRIPTION from the stockholders, of which *over Eight Millions* have been paid in upon the work already done, and which will be increased as the wants of the Company require.

VI.—NET CASH EARNINGS on its Way Business, that already amount to MORE THAN THE INTEREST on the First Mortgage Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that

First Mortgage Bonds

upon such property, costing nearly three times their amount

ARE SECURE BEYOND ANY CONTINGENCY

The Union Pacific Bonds run thirty years, are for $1,000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is 102, and at the present rate of gold, they pay a liberal income on their cost.

The Company believe that these Bonds, at the present rate, are the cheapest security in the market, and reserve the right to advance the price at any time.

Subscriptions will be received in Titusville by

And by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds payable in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the Country traversed by the Road, the Nature of Connections, and the Value of the Bonds, which will be sent free on application at the Company's office, or by any of the advertised agents.

Loveland, a prominent Spiritualist and popular expounder of spiritualistic philosophy, publishes a challenge to day to the clergy of St Louis and elsewhere to publicly discuss the following questions with him: 1st, That the system of religion taught by the Catholic and Protestant churches are false in theory and opposed to the advancement of civilization and the general well being of mankind. 2d, That modern spiritualism embodies a system of the highest religious truth that has ever come into the world, and that it is susceptible of proof.

The pilot boat North arrived here last night and reported that on the 6th inst., she fell in with the hull of a back water dogged, abandoned and sinking, 90 miles from Sandy Hook. She was towed to the highlands and upon such part of the hull as could be kept afloat, a dripping trunk, which, on being opened, was found to be full of clothes, and the name of the vessel was ascertained to be H. Trowbridge, of New Haven, which sailed here for Barbadoes on the 4th instant. When she sailed from this port Captain Hotchkiss was in command, and had his wife and family on board, and as they have not been heard from they are supposed to be lost overboard in the gale which must have caused the wreck.

Mrs. Woodward, in court, said it was not a mole but a rat.

On Tuesday last the stage from Butler to Harrisonville, Bates County, was stopped by three men, and the passengers robbed of several hundred dollars and other valuables. On the evening of the same day Mr. Goodman, from Mansfield, Ohio, in company with his family near Morrisonville, was robbed of four hundred dollars and his watch, no doubt by the same men who robbed the stage. Goodman was going to Bates County to buy a farm, but was stripped of every dollar he had. A party of citizens armed and went in pursuit of the robbers.

FINANCIAL AND COMMERCIAL

PETROLEUM MARKETS.

OFFICE OF THE MORNING HERALD, TITUSVILLE, August 8, 1868 6 P. M.

A decided dullness has prevailed the Petroleum market throughout the day. The transactions were exceedingly light, but on account of their being only a moderate amount during there was no material alteration in prices. The following were the sales: Five car loads at Titusville, at $5.00; 500 barrels on Bull Run at $4.80 at the wells; three car loads at Titusville, for the Boston market, at $5.00; one car load at Titusville, at $5.10. At Oil City there was nothing doing. Sellers were asking $5.70 on broad gauge cars, with no inquiry. The unfavorable tone of the market on the Creek, is mainly attributable to one of the character which is at present the principal feature of the three largest home markets. Besides this the failure of the Pool Brothers, Petroleum dealers, a day or two since, by which the banks and a number of dealers at Oil City and Rouseville, lost in the aggregate about $90,000 or $100,000, excites a sight degree of caution. During the latter part of the afternoon there was nothing being done at any point. At Oil City we quote nominally at $5.40@5.50 on broad gauge cars.

We quote:

Crude at Pioneer delivered on the cars, 40 to 49 gr	$5.00
Crude at Titusville delivered on the cars, 40 to 49 gr	$5.00
Crude at Petroleum Center delivered on the cars, 40 to 49 gr	$5.00

An Important Notice to the Public.

From the San Francisco News.

MESSRS. EDITORS—I was expecting to sail to New York in the Pacific Mail Steamship Company's steamer of the 18th of June, but unforeseen circumstances compel a delay of a few days. I cannot sail till the 30th of the month. It is therefore proper that I should give this notice to those friends who have entrusted articles to my care for delivery to their relatives in the Atlantic States, so that they can send by parties that sail on the 18th such of them as demand expedition. I will give a list of the things I am speaking of, and those which will admit of delay till the 30th, can remain in my possession: 1 violin; 1 double barreled gun; 1 package books; 1 do sheet music—negro ballads; 1 set castors—vinegar cruet missing; 2 scratch-wigs, for repairs; 1 woman; 7 boxes and 1 barrel ore specimens; 1 amalgamated pan, for repairs; 1 parrot; 1 pup; 1 cage canaries—two dead; another woman; 18 mining company prospectuses—marked "Please circulate;" 1 valise—appears to be nothing in it; 6 photographs—consigned to different parties; 1 volume Tennyson; 1 white woman; 1 box salve; 2 accordeons; 1 overcoat 1 set chessmen; 1 cow; 1 sandalwood fan; 1 rosewood dressing case; 4 meerschaum pipes; 3 specimen pins; some green widows; 1 Hoe steam press, for repairs; 1 Unabridged Dictionary; 3 bandboxes; 1 lunatic, for asylum; 1 idiot, for Paris; 1 gridiron; 1 baby; 66 letters; 1 package gold coin; 1 do. greenbacks; 23 trunks; another woman.

Besides these articles, I have to carry along a valise for myself, and a jug, and I may be discommoded unless some of my things go by the steamer on the 18th. The baby is not well, and appears to get worse all the time. I think may be it has got the mumps, or the consumption, or something of that kind. These are things I do not know anything about. It must be one of those, because I have doctored it for fits and measles, and all those things, but still she grows worse.

She had better go by the steamer of the 18th. I do not think she will keep for the 30th. To tell the plain truth, I am sorry I agreed to take this baby along. A baby is too troublesome—altogether too troublesome. I have had a baby at sea, and I know. Once I had twins on a ship, and I never suffered so much in my life. Please come and get this one, and ship it per steamer of the 18th.

Most of the other articles had better go at the same time, especially the cow and the idiot. If I were relieved of those I could take some more women, and may be another trunk or two.

IN COURT.

At an adjourned term of the Circuit Court of the United States, for the Northern District of New York, in the second circuit held at the City Hall, in the city of Albany, the 28th day of January, in the year of our Lord 1868.

PRESENT:

The Honorable NATHAN K. HALL, Judge.

JACOB H. SHRAR & JOSEPH PACKARD, vs GEORGE R. BULL & JOHN M. ROCKWELL. } *In Equity.*

It is further ordered, adjudged and decreed, that a perpetual injunction be issued in this suit against the defendants, restraining them from further infringements of said Patent No. 51,406, dated Dec. 5th, 1866, for improvements in cooking stoves, pursuant to and in accordance with the prayer of the Bill of Complaint.

(Signed) A. A. BORGS, Clerk.

The above suit was instituted for infringement of the Patent securing the manner of fitting the ash pan in the hearth of the American Cooking Stove, and for the combination of the bailed ash pan. We have repeatedly cautioned the public against selling or using stoves with these improvements not manufactured by us. All persons now selling or using stoves with these improvements in violation of the above injunction, without license from us, will be liable to fine and imprisonment.

Heretofore we have in our circulars, alluded to a series of experiments being made with Nitro Glycerine and other explosives. We now announce that we have succeeded, even beyond our most sanguine expectations, as regards the safety of handling, also the unprecedented force and power manifested by a rational combination whereby the size of the Torpedo is much reduced, and the force made many times greater than heretofore, and are now prepared to fill orders for any quantity of the article, with the assurance that it will do the work claimed for it in every well authenticated case where the size of the shell and quantity of powder used is proportioned to the depth of the well to be shot.

CAUTION.—The public is cautioned against employing any other than regularly authorized agents of this Company, as the patent, according to the recent decision of the Commissioner of Patents for the United States, covers the use of the Torpedo and all other explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights, and we shall hold all persons working interests to a strict accountability for such infringements.
